

The Executive Board supports the Museum of Motherhood's mission, purpose, goal, policies and programs. They are the governing body of the MOM Art Annex non-profit sets a visible example by regularly attending museum meetings, events, and activities. They volunteer for committees and initiatives acting as ambassadors by communicating key points to important, interested and relevant parties that are key to MoM's growth. The board oversees and navigates the success of the museum fiscally, socially, and practically according to our mission and each board member commits to an annual \$1,500 give or get donation to support MoM.

LIVING BOARD: The "living museum" status means that new directions, goals, and implementation of projects will be collaboratively planned and executed by a group of individuals who agree to invest in MOM's ongoing initiatives of providing services and access within the larger multicultural community. These Living Museum board members are invited annually with the suggestion that they serve a minimum of a 3-year term.
