

## List of Upcoming Season – Events, Workshops, and Rotating Exhibitions (with Dates and Venues) for 2024–2025\*:

**Arts Statement:** The Museum of Motherhood's 12-month rotating exhibition series celebrates the multiplicity of maternal identities (and our relationship to them) through an intersectional, multicultural, and intergenerational lens. Blending fine art, community storytelling, environmental awareness, and social justice themes, this program is designed to deepen public understanding of our *one big human family* while elevating underrepresented voices. We do this through immersive installations, participatory workshops, and educational partnerships, the series engages the diverse communities of St. Petersburg, Florida, making it a vital cultural and civic initiative reaching families where they live, work and play. We Build Tampa Bay!

### 2024

#### October - December

Moved museum locations within The Factory, then impacted by back-to-back hurricanes. During this time, we focused on rebuilding our team and restructuring. We built the "Escape Womb Experience", created murals and also launched a "Give or Get" campaign to collect supplies for mothers and babies affected by the storm.

### 2025

## **July**

July 1: “A Womb with a View” Art Exhibition - The Gallery @The Factory: by Museum of Motherhood founder and director, Martha Joy Rose. This work combines academic scholarship and labor statistics with interactive art in a manner that is both provocative yet accessible. The large red, framed sculpture depicts the ‘visible’ and ‘invisible’ effects of pregnancy and motherhood in a world which keeps erasing, isolating and devaluing women’s labor. This is a movable, interactive, mixed media work first shown in The Gallery onsite at The Factory (July-August 2025) and a continuation of the project “A Womb of My Own” with contributors: Lucky Leroy, Amy Wolf and Jessica Caldas - FL artists (2024)

*Venue: Gallery FloridarRAMA at The factory*

*This is Me: Whole Girl* body education program for girls ages 12 to 16 to boost confidence, knowledge, and control over their health. Camp dates are July 28-August 1 and August 4-8.
